While we wait for an early July release for the BlackBerry Tour 9630 from Verizon, it appears that our friends up north now have some pricing on the upcoming BlackBerry Tour. A Bell internal inventory system has the BlackBerry Tour 9630 priced at \$599.95. If Bell follows their traditional pricing strategy, the BlackBerry Tour 9630 could land for \$199.95 (after rebates, with a 3-year contract). No word on release date for the Bell edition, but we're still looking at a possible early July release for the Verizon BlackBerry Tour 9630.

The screenshot shows a software interface for inventory management. At the top, there's a header with 'Model Numbers' and 'BGR'. Below it is a table with columns for 'Product Code', 'Equipment Code', 'Product Type', 'Equipment Type', 'Market Description', and 'Unit Price'. The table lists several entries for the BlackBerry Tour 9630, with unit prices ranging from \$199.95 to \$599.95. Below the table, there are input fields for 'Product Name', 'Product Type', 'Equipment Type', 'Equipment Code', 'Market Description', 'Equipment', 'Original Cost', and 'Sell Price'. The 'BGR' logo is visible in the bottom left corner.
